

The Forest Service is considering a salvage sale within the 2007 Rat Creek Fire on the Wisdom Ranger District. The fire burned approximately 25,000 acres west of Wisdom, MT in the area north of Highway 43 and south of the Mussigbrod fire from the Continental Divide to the Forest Boundary. A proposed action is being developed at this time; we anticipate our proposal will recommend the harvest of several hundred acres of burned lodgepole pine and may involve the construction of temporary roads. If you would like to receive the scoping letter and hear more about the proposed action please return this card to our office. If you do not respond, we will assume you are not interested in receiving mailings concerning this project. Please return the postcard by March 1, 2008 to Dennis Havig, Wisdom Ranger District, P.O. Box 238; Wisdom, MT 59761.

A handwritten signature in black ink, appearing to read "Dennis Havig". The signature is fluid and cursive, with the first name "Dennis" and last name "Havig" clearly distinguishable.
